

**4th International Barcode of Life Conference
30 November – 3 December 2011**

www.dnabarcodes2011.org

Welcome to the 4th International Barcode of Life Conference at
The University of Adelaide, South Australia

The 2011 Adelaide Conference will be the first international barcode conference ever held in the southern hemisphere. It will have several goals:

- **Sharing and discussing important results**
- **Looking ahead to emerging technologies and approaches**
- **Providing opportunities to plan new activities and form new collaborations**
 - **Offer training opportunities for newcomers**

The Conference may address any of the following areas of Barcoding:

- Illegal wildlife and timber trade
- Pest and disease diagnostics
- Forensics
- Quarantine identifications
- Environmental monitoring & assessment
- Animal, plant, fungal, protist, bacterial systematics
- Beyond Barcoding

Please complete the [Expression of Interest Form](#) on the website to ensure you receive information as it becomes available.
