

The **Atlas of Living Australia** is a collaborative, national project that aggregates biodiversity data from multiple sources and makes it freely available and usable online.

Begin at the Atlas of Living Australia homepage.
Type the species or common name in the search box at the top.

species ***Cracticus tibicen* (Latham, 1801)** – Australian Magpie

Australian Magpie, Australian Magpie, Australian Magpie

Kingdom: ANIMALIA

Australian Magpie

Record a sighting/share a photo Occurrences: 889,624

Click on the species name when it comes up in the list.

You will then see the Occurrence records map for that particular species. Each dot represents an occurrence of that species.

If you click on View interactive map it will open the map in the Spatial Portal. You can then zoom in to see the sightings of that species that have been recorded in your chosen area.
