

BushBlitz
SPECIES DISCOVERY PROGRAM

You are invited to attend the

Bush Blitz Symposium

Adding to Australia's Biodiversity Picture

Hosted by the Australian Biological Resources Study (Bush Blitz Team)

9:00 am – 5:00 pm
Tuesday 30 July 2013
Old Parliament House, Canberra

Bush Blitz is a national partnership between the Australian Government, BHP Billiton and Earthwatch Australia to discover, document and describe Australia's unique flora and fauna. It is the first continental-scale biodiversity survey of Australia, providing the knowledge needed to help us protect Australia's biodiversity for generations to come. To date, there have been 17 expeditions in 60 reserves covering almost 2 million hectares.

This work has uncovered more than 650 new species and provided baseline scientific data to help manage and protect biodiversity at both local and national scales.

This symposium is designed to highlight the outcomes of the Bush Blitz program in increasing our understanding of Australia's biodiversity.

A detailed program of speakers and their presentations will be available soon.

To register go to www.bushblitz.org.au

For further information and help please contact: Daniela Binder on (02) 6250 9433
or email daniela.binder@environment.gov.au

Registrations close by 5pm Monday 22nd July 2013

*Registration is essential (but free). Limited seating is available.
Lunch and light refreshments will be provided for all registered attendees.*
